

I-29 | Exit 133

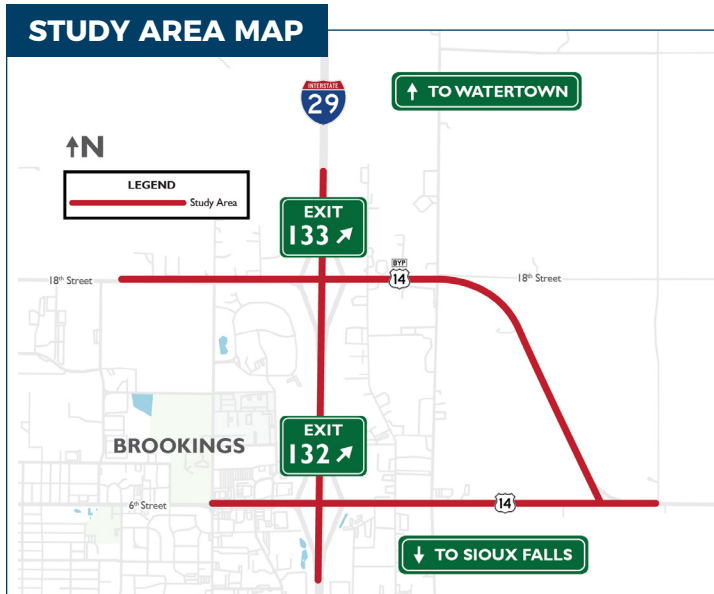

Interchange Modification Study

PROJECT OVERVIEW

South Dakota Department of Transportation (SDDOT) plans to reconstruct the existing Interstate 29 (Exit 133) interchange and U.S. Highway 14 Bypass / 18th Street as part of an anticipated Fiscal Year 2029 construction project. Variations of a Modified Diamond interchange were carried forward from the U.S. 14 – U.S. 14 Bypass Corridor Study completed in 2020.

The planned FY2029 project will also reconstruct part of the Highway 14 Bypass. The future corridor number of lanes, access management, and reconstruction limits will be determined as part of this study. The current Highway 14 Bypass corridor study limits are from just east of Jackrabbit Avenue to the Highway 14 intersection east of Brookings.

This study is a collaborative effort between the SDDOT, Federal Highway Administration (FHWA), and City of Brookings.

STUDY SCHEDULE

MEETING PURPOSE

The purpose of this meeting is to present and gather feedback on:

- 1 Revised interchange alternatives and access modification options
- 2 Preliminary recommendations for the I-29 (Exit 133) interchange and Highway 14 Bypass corridor
- 3 Access options along the Highway 14 Bypass corridor

SUBMIT A COMMENT

Questions and written comments will be accepted through Friday, December 1, 2023 and may be submitted at the public open house, through the website, or directly to one of the study contacts.

All meeting materials have been posted to the study website.
